

JOB: Research Associate in Biostatistics, University of Leicester, UK

por webadmin - Jueves, noviembre 27, 2014

<http://www.biometricsociety.net/2014/11/27/job-research-associate-in-biostatistics-university-of-leicester-uk/>

Research Associate
Biostatistics Group
Department of Health Sciences,
University of Leicester,
UK

Salary Grade 7 - £32, 277 to £37,394 per annum

REF:MBP01210

Open Ended Contract, subject to Fixed Term Funding. Funding is available until 30 September 2017

At Leicester we're going places. Ranked in the top 20 universities in Britain our aim is to climb further. A commitment to high quality fused with an inclusive academic culture is our hallmark and led the Times Higher Education to describe us as "elite without being elitist".

In this position you will develop and carry out independent research, contributing as a team member to the Cancer Research UK project ("Development and application of statistical methods to maximize the increased opportunities made available in the UK with more detailed population-based cancer data". The post will involve the development and application of statistical methods using population-based cancer data. The post will require high-level expertise in biostatistics/medical statistics/applied statistics.

You will have a PhD (or relevant MSc plus equivalent extensive research experience) in relevant area (medical statistics / biostatistics / cancer epidemiology) and be able to provide evidence of research productivity (including high-quality research publications, presentations)

Applications

Informal enquiries are welcome and should be made to Professor Paul Lambert (paul.lambert@le.ac.uk)

For further information and to apply on-line, please visit our website,
