

Learning Analytics post-doc in San Diego

por webadmin - Sábado, enero 17, 2015

<http://www.biometricsociety.net/2015/01/17/learning-analytics-post-doc-in-san-diego/>

Hi all,

We are advertising for a post-doc position at San Diego State University under our new Analytics and Institutional Research (ASIR) Statistical Modeling Group. The post-doc will be mentored by me, Professor Andy Bohonak, and ASIR Director Jeanne Stronach. Exciting opportunity to dig into the massive California State University System database to develop a learning infrastructure for our campus and perform educational data mining research.

The job ad may be found as follows:

- go to <http://bfa.sdsu.edu/~person/employment/staffjobs.htm>
- click on “New and Returning Applicants”
- look for the Research Technician III, Enrollment Services position Job ID 5625 (that is the classification we have to use for the post-doc position)

Please contact me with any questions you may have about the position.

Thanks!

Richard A. Levine, PhD

Professor of Statistics

Department of Mathematics and Statistics San Diego State University
