

## **Postdoctoral Research Position at Iowa State**

**por webadmin - Viernes, marzo 06, 2015**

<http://www.biometricsociety.net/2015/03/06/postdoctoral-research-position-at-iowa-state/>

The Department of Statistics at Iowa State University invites applications for a postdoctoral research position. The successful candidate will work with faculty and graduate students to advance plant science research by the development, implementation, and application of statistical methods.

Relevant topics include genomics, hierarchical modeling, functional data analysis, statistical learning, and prediction from massive training datasets containing spatially and temporally correlated observations. Position qualifications are a PhD in statistics, biostatistics, or a related field; excellent training in statistical methods; strong programming and communication skills. The position is open until filled, with initial appointment for two years and a third year possible. To apply, send a CV, a statement of interest, and contact information (e-mail and phone number) for two references to Dan Nettleton at [dnett@iastate.edu](mailto:dnett@iastate.edu).

Iowa State University is an Equal Opportunity/Affirmative Action employer.

All qualified applicants will receive consideration for employment without regard to race, color, age, religion, sex, sexual orientation, gender identity, genetic information, national origin, marital status, disability, or protected veteran status, and will not be discriminated against.
