<http://www.biometricsociety.net/2015/04/17/job-associate-professor-of-statistics-or-probability-theory-at-university-of-copenhagen/>

At the Department of Mathematical Sciences, University of Copenhagen, Denmark, we are looking for an expert in Statistics or Probability Theory. The successful applicant has to be an internationally renowned researcher at a very high level.

Applicants are required to have university level teaching experience, documented teaching competencies and must be able to explain and reflect upon own teaching practice and portfolio. Formal pedagogical training or supervision equivalent to the University of Copenhagen teacher training programme for assistant professors is required.

Duties include the applicant's own research, development of the field, assessment tasks, grant applications, and research management such as supervision and training of research fellows and other staff. The successful applicant must also teach, supervise, prepare and participate in examinations, and fulfill other tasks requested by the Department.

Assessment of applicants will primarily consider their level of documented, original scientific production at an international level, including contributions to developments in their field, as well as their documented teaching qualifications. Managerial and out-reach qualifications of applicants including ability to attract external funding will also be considered.

Deadline for application: 25 September, 2015

Appointment: 1 January, 2016, or soon hereafter
