Dear colleague,

I am glad to inform you that CoDaWork-2015, Workshop on Compositional Data Analysis, will be held in Girona, Spain, from June 1-5.

CoDaWork-2015 offers a forum of discussion for people concerned with the statistical treatment and modelling of compositional data or other constrained data sets, and the interpretation of models or applications involving them. The primary goal of the workshop is to identify important potential lines of future research and gain insight as to how they might be tackled. CoDaWork-2015 intends to bring together specialist researchers, data analysts, postgraduate students, as well as those with a general interest in the field, to summarize and share their contributions and recent developments.

All details are available at the conference website <http://www.compositionaldata.com/codawork2015/>. If you know other colleagues who would be interested in attending the CoDaWork-2015, please kindly share this message with them.
