

Conference: Mathematical Methods in Systems Biology

por webadmin - Jueves, mayo 14, 2015

<http://www.biometricsociety.net/2015/05/14/conference-mathematical-methods-in-systems-biology/>

This is to announce the upcoming Mathematical Methods in Systems Biology conference taking place at University College Dublin from 15th to 18th June 2015. The goal of the conference is to bring together applied mathematicians, statisticians and researchers working in various fields of systems biology in order to exchange ideas and initiate collaborations. Such problems may arise in fields such as: cancer modelling, detection and treatment; epidemiology and infectious diseases; computer-assisted diagnosis; medical imaging and others. A number of experimental biologists and clinicians will present open problems that could be approached from a mathematical and/or statistical perspective. Invited speakers:- Adrian Raftery, Statistics, University of Washington, USA.- Walter Kolch, Systems Biology Ireland and UCD Conway Institute.- Philip Maini, Centre for Mathematical Biology, Oxford University, UK.- Martin Steinhoff, UCD Charles Institute of Dermatology.

For more details, including registration and abstract submission, please see the website <http://mathsci.ucd.ie/mmsb/>.
