

## Reminder: Tenth Madrid UPM Advanced Statistics and Data Mining Summer School - Early registration

por webadmin - Viernes, mayo 15, 2015

<http://www.biometricsociety.net/2015/05/15/reminder-tenth-madrid-upm-advanced-statistics-and-data-mining-summer-school-early-registration/>

Dear colleagues,

We would like to remind you that early registration for the tenth Madrid UPM Advanced Statistics and Data Mining Summer School is open until June 7th. The summer school will be held in Boadilla del Monte, near Madrid, from June 29th to July 10th. As in previous years, the school comprises 12 week-long courses, of 15 lecture hours each, which are given during two weeks (i.e., with six courses given each week). Students are free to choose the courses according to their interests, with the only restriction being that courses which are given in parallel are mutually exclusive.

We would also like to announce that INOMICS has selected our summer school as one of the world's top ten summer schools in mathematics and statistics. You can read more at <https://blog.inomics.com/top-10-summer-schools-in-math-stats/>

Extended information on course programmes, price, venue, accommodation and transport is available at the school's website:

<http://www.dia.fi.upm.es/ASDM>

Best regards,

Pedro Larranaga, Concha Bielza, Bojan Mihaljevic and Laura Anton-Sanchez.

— School coordinators.
