BARCELONA, November 25-27, 2015.

The **International Workshop on Locational Analysis and Related Problems** will take place during November 25-27, 2015 in Barcelona (Spain). It is organized by the [Spanish Location Network and Location Group GELOCA \(SEIO\)](#). GELOCA is a working group on location belonging to the Statistics and Operations Research Spanish Society. The Spanish Location Network is a group of more than 140 researchers distributed into 16 nodes corresponding to several Spanish universities. The Network has been funded by the Spanish Government.

Every year, the Network organizes a meeting to promote the communication between its members and between them and other researchers, and to contribute to the development of the location field and related problems. The [last meeting took place in Sevilla, October 1-3, 2014](#).

The topics of interest are **location analysis and related problems**. It includes location models, networks, transportation, logistics, exact and heuristic solution methods, and computational geometry, among others.

Researchers and practitioners are invited to present works in the form of oral communications or poster. For the participation, the submission of a short abstract is required.
